OBJECTIVES
Sensitise and educate Rodriguans on the endemic biodiversity present in Rodrigues, the need for its conservation and other relevant environmental issues.

ACTIVITIES BEING IMPLEMENTED
- Give educational talks to school groups and village groups.
- Organise educational visits in Solitude Nursery, Grande Montagne and Anse Quitor Nature Reserves.
- Organise Volunteer Conservation Days in the nursery, nature reserves and during bat surveys.
- Organise and deliver talks on radio and television.
- Write newspaper and magazine articles.
- Develop and distribute educational material (bookmark, brochures, posters, stickers, etc.).
- Organise an island-wide fruit bat survey once per year in November.
- Support various other Rodriguan restoration and conservation projects.

PROJECT BENEFICIARIES
- Students, educators and community groups.
- Rodriguan population and its future generations, school children, tourists and the world at large.
- Republic of Mauritius, regarding meeting national biodiversity targets (e.g. the National Biodiversity and Strategy Action Plan 2006-15) and fulfilling obligations towards international biodiversity conventions (e.g. Rio Conventions, Aichi Targets, Millennium Development Goals).

PROJECT DESCRIPTION
The Rodrigues Environmental Education Project (REEP) has been operational since 1998. From its inception REEP has been involved with the community, changing people’s attitudes towards the environment.

This change is achieved through awareness-raising and informal environmental education initiatives: talks in schools and to the media, visits to restoration areas and environmental education campaigns - including outreaching to community groups so as to allow them to have a ‘hands-on’ experience of the habitat restoration process. A Volunteer Day is additionally celebrated through activities and distribution of educational materials to those who have volunteered for the Mauritian Wildlife Foundation during that year.

For CSR activities and more information please contact the Fundraising Manager or email fundraising@mauritian-wildlife.org
Thank you for considering our appeal.
TITLE OF PROGRAMME: RODRIGUES ENVIRONMENTAL EDUCATION PROJECT (REEP)

By Mauritian Wildlife Foundation [NCSR Reg No: NCSRF/2017/0158]

REEP also focuses on sensitising school children about environmental issues that affect Rodrigues and encourages them to take pride in their natural heritage. Various approaches are used and include a short film on the Rodrigues Fruit Bat to create awareness on the importance of the Bat in the ecosystem, an annual ‘Bat Day’ and an illustrated field guide entitled ‘La Faune et la Flore de Rodrigues’ distributed to all schools and libraries in Rodrigues. World Biodiversity Day is also celebrated each year with plant donations to Standard 6 children.

In 2016, guided Ecotours were launched in the Grande Montagne Nature Reserve - the site has now become an active regional and international platform for raising awareness of Rodrigues’ unique endemic fauna and flora with foreign visitors. These various actions have also helped develop collaborative links with the government, private sector and other non-governmental organisations.

REPORTING AND FINANCIALS

PROJECT DATES
The programme is continuous but the level of project activity is assessed yearly to adjust to the project aims and requirements. Annual report & other reports delivery is as per agreed timeframe with main funders.

RESOURCES REQUIRED
- Human Resources: One full-time Educator and Support Staff.
- Infrastructure: One fully equipped office.
- Equipment: One vehicle, use of vehicles for activities, one laptop, one projector, Educational and Awareness Days material (posters, reserve signage, exhibition signage, stickers, brochures and booklets) and bat counters.
- Other: Printing and stationery, refreshments for volunteers and one training visit to Mauritius.

BUDGET 2021-2022
